Payment Policy Change

HOUSTON (December 27, 2019) – For nearly five years, Metal Zinc has prospered because of our partnership with companies like you. We are excited to continue our business together for many years to come.

We have exciting things planned for 2020, including more products becoming available, an updated website with more added features, and continued monthly specials. All these enhancements will make our business work more seamlessly with you. One change that we are making as of January 1, 2020, is our payment structure. All 2% of Net-10 discounts will be eliminated, and everyone will be on a standard Net-30 payment plan. A Net-30 is the only valid payment plan available.

You should expect one of our sales reps to connect with you in the weeks ahead to discuss your plans for 2020. Metal Zinc is committed to providing world-class products at an economical price from people who care.

From all of us at Metal Zinc, I would like to thank you for all of the business this past year and look forward to a very successful 2020.

Regards,

Ryan Walsh
President
Metal Zinc, LLC

About Metal Zinc, LLC

Founded in 2015, MZ manufactures a competitive line of high quality, low-cost HVAC sheet metal products, and accessories for the single-family, multi-family, and commercial contractors. MZ has a 67,000 square foot facility in Houston, which uses the latest manufacturing technology. All MZ products are sold exclusively through HVAC distributors, offering them and their customers several new and cutting-edge innovative products. High quality. Low cost. Superior service. People who care. That's Metal Zinc.
